

Creating dynamic kitchens

The new Strato Citrus Orange & White-White Acrylic

The new Strato in Mint & Cream-White Acrylic

From contemporary to classic the choice is yours

When it comes to kitchens, Pullman is the name

Pullman prides itself on providing you, our customer, with fine workmanship and an impressive product range that will enhance the portfolio of all kitchen retailers.

Pullman has focused on quality, service and product innovation over the last fifteen years. It has enabled us to go from strength to strength and so we are now in a strong position within the kitchen furniture industry.

Positioned in the centre of the country, our factory in Northamptonshire is close to motorway networks and has a very skilled labour force.

The new Strato's elegant flowing lines with sumptuous curves.....

The perfect partnership supplying beautiful kitchens

The new Strato in Mint and Cream White

The new Strato in Alpine White with a touch of Citrus Orange

Many kitchen studios have tried to combine the high value Parapan product with the standard range of cabinets that are available. The lack of compatibility became apparent at great cost to themselves.

New Strato by Pullman was created to fill this gap in the market. Pullman have their own thermoforming and polishing workshops so you can be assured of the quality and the fit. Our close relationships with top studios has allowed us to develop this new range which is far beyond industry expectations. It now allows designers the freedom to combine quality cabinets with sumptuous curves.

It's whats inside that can make all the difference.....

White drawers are much more pleasing on the eye than the industrial grey that most companies use.

Solid or Glass sided drawers with internal lighting give that touch of luxury

One of our most popular units. Pullout drawers in Larders

A designers dream.

Drawers are now available in both white and black

- 270mm shallow & deep
- 350mm shallow & deep
- 400mm shallow & deep
- 450mm shallow & deep
- 500mm shallow & deep
- 650mm shallow & deep

The introduction of the new Blum intivo range of drawer boxes two years ago totally changed the look and feel of our product. This has set us apart from most UK manufactured brands.

The structure of the whole kitchen design relies on its cabinets.....

Black drawers look sumptuous with darker colours

For a kitchen to have a 20+ year life it is imperative that the cabinet and its mechanical parts are up to the job. A sink unit door could be opened thousands of times and a cutlery drawer tens of thousands.

The staff at Pullman pride themselves on the products that they produce and the high standards that they achieve. This is only possible if the materials used meet the highest standards as well.

Here are some points to consider when choosing your supplier.....

- Fully assembled in our factory
- 18mm high density MFC with all edges edged
- 2mm ABS edging on front edge for durability
- Colour matched cabinets to doors if needed
- Glued and doweled construction for longevity
- Blum intivo drawer system in white or black (not the grey seen in DIY stores)
- Heavy weight soft close drawer runners 30kg, 50kg & 65kg
- 120 degree opening soft close hinges
- 8mm MFC backs to reduce weight and to ensure cabinet is square
- Built in LED spots under wall units
- Integrated LED cabinet lighting with opening sensor
- A very close relationship between manufacturer and supplier to ensure the product arrives correct and on time

Curves are our speciality

It's all a question of whats important for you.....

The perfect partnership supplying beautiful kitchens

Alto Textured Mocha & Mulberry

A Painted Oak Shaker Mixed With Beautiful Walnut

Pullman have worked closely with Burbidge for many years and can vouch for their quality and design. Being a UK manufacturer we can use the made in England phrase that was so popular in the past.

Beautiful oaks that have warmth for those cold winter nights....

The perfect partnership supplying beautiful kitchens

A traditional In-Frame Kitchen in Natural Oak

A Shaker style door in Natural Oak

The use of curves in a kitchen can soften the lines and greatly increase the shelf and worktop area. You can see from the picture above how curves capture the light in corners.

Unique in design and detail

Metris is an award-winning, contemporary kitchen collection presented around 8 inspirational signature looks. Each look can be adapted into bespoke designs to suit almost any space with a distinctive palette of surfaces, textures and colours allowing you to create a unique statement for your customer.

Pullman is an approved manufacturer of the Metris kitchen brand. Our Metris kitchens are all made to order to the highest quality standards.
